Projects

GIGMOT
Gigimot is the simplest practice management software for therapists and small clinics. Our practice management software includes scheduling, payments, and a client portal that automates appointment bookings. In addition to offline appointments, you can provide online sessions to your clients with Gigimot's fully secured telehealth feature.

AppRent
AppRent is property management software that focuses on user-friendliness, advanced reporting, and comprehensive analytics. It offers a simple way to pay rent, submit work orders, and much more.

ABC
ABC Services Group is a professional services company focused on providing higher efficiency in the service management industry. We ensure hassle-free and smooth operations that property owners, stakeholders, and facility managers can rely on when offering the very best living and working atmosphere for each resident, patient, visitor, or customer.

Poker Heart Poker
Poker is a card game where players bet on who has the best card combination. The game is played with a standard 52-card deck, and the value of a hand is determined by its odds. The more unusual the combination of cards, the higher the hand ranks.
