

## SUMMARY

Results-driven Node.js Backend Developer with 4.2 years of experience in building scalable decentralized applications, REST/GraphQL APIs, and Web3 platforms and real-time gaming backends. Specialized in Node.js, Express.js, MongoDB, IPFS & Blockchain delivering NFT marketplaces & virtual land platforms.

---

## WORK EXPERIENCE

**NodeJs(Software Engineer) , Sigma Solve Ltd** Jan 2025 - Present

- Developed scalable **Next.js API backend** integrated with **Salesforce CPQ and Supabase**.
- Built APIs for **Excel/CSV bulk data imports** for pricing and discount management.
- Integrated **Azure Blob Storage** with signed URLs for secure file uploads.
- Implemented **Salesforce webhooks** to sync Accounts, Contacts, Opportunities, and Quotes.
- Developed automated **email notifications using Resend API** for quote updates.
- Implemented **cron jobs using Supabase / PostgreSQL (pg\_cron)** to automate tasks such as quote expiration and scheduled data updates.

**Node.js Developer, Biz Technologies IT Solutions** Mar 2023 - Dec 2025

- Designed and developed scalable **decentralized REST APIs for Web3 marketplace** supporting NFT, Land, and asset management using Node.js, Express, MongoDB, and IPFS.
- Implemented **blockchain-integrated backend** services enabling **NFT transactions** and virtual asset ownership workflows and **Real time gaming** play, and earn crypto tokens.
- Built secure API modules **improving marketplace data consistency** and reducing response latency.

**Node.js Developer, Red Roots India Pvt. Ltd** Apr 2022 - Mar 2023

- Developed Expense Management module automating employee reimbursement workflows, **reducing manual HR effort by ~20%**.
  - Built vendor scheduling and **appointment management APIs** improving operational tracking and coordination.
  - Maintained and optimized backend services ensuring application stability and bug resolution.
- 

## EDUCATION

**Bachelor of Technology (B.Tech) – Computer Science** Aug 2016 - Sep 2020

Seth Vismabher Nath Institute of Engineering & Technology
